

**Author information for the ten (10) key scientific peer-reviewed publications with evidence supporting
Private Members Bill C-648 (41st Parliament)
which would require health warning labelling on cell phones.
(Press Conference January 19, 2015)
For more information see: <http://www.c4st.org>**

- 1. Baan, R., Grosse, Y., Lauby-Secretan, B., El Ghissassi, F., Bouvard, V., Benbrahim-Tallaa, L., ... WHO (World Health Organization) International Agency for Research on Cancer Monograph Working Group. (2011). Carcinogenicity of radiofrequency electromagnetic fields. *The Lancet Oncology*, 12(7), 624–626.**

Author information:

Listed authors are with WHO-IARC and wrote on behalf of the WHO International Agency for Research on Cancer Monograph Working Group. The Working Group consisted of 30 scientists from 14 countries.

- 2. Carlberg, M.¹, & Hardell, L.² (2014). Decreased survival of glioma patients with astrocytoma grade IV (glioblastoma multiforme) associated with long-term use of mobile and cordless phones. *International Journal of Environmental Research and Public Health*, 11(10), 10790–10805.**

Author information:
