Main Provisions of the Text

Clause 1:

Integrate the need for sobriety of public exposure to electromagnetic waves into telecommunications policy objectives.

Clause 2:

Create electromagnetic registries: publication by the National Frequency Agency of guidelines regarding results of simulations of exposure generated by the establishment of an electromagnetic installation.

Clause 3:

Consider the effects of wireless technology deployment on public exposure to waves in a periodic report produced by the Agence nationale de sécurité sanitaire et de l'alimentation (ANSES) [national sanitary safety and food agency].

Clause 4:

Amend Act no. 2010-788 of July 12, 2010, on the national commitment to the environment ("Grenelle 2") to limit and monitor sources of wave emissions.

Clause 5:

Strengthen regulations governing advertising for mobile phones and other radioelectric devices: prohibit advertising promoting the use of mobile phones by and the sale of mobile phones to children under the age of 14; include a message concerning the recommended use of a mobile phone in all advertisements for such devices; require all advertising to display users employing earbuds with mobile phones; etc.

Clause 6:

Launch a government campaign on responsible use of mobile phones.

Clause 7:

Prohibit Wi-Fi installation in facilities designated for use by children under the age of six.

Clause 8:

Submit to Parliament a government report with useful answers for individuals who experience electro-hypersensitivity.

Committees' Key Amendments

MEETINGS OF THE ECONOMIC AFFAIRS COMMITTEE
Adoption of the bill at first reading on January 8, 2014
Report no. 1677 by Laurence Abeille, Ecologist, Val-de-Marne
Committee text: no. 1677
